I provided testimony during the negotiations along with providing that same testimony for filming purposes for the union to be posted on several social media platforms and/or news if needed. My current level of education, bachelors in science of nursing and I am currently in a MSN bridge to FNP program.

Statement of Interest:

I wish to hold a grievance officer position with AaNA because I have a strong passion and sense of purpose to be more involved in our union especially now given the current atmosphere at PAMC with floor nursing and providence management. I have always had a fight within me to fight for what is right and to always fight for injustice, because injustice anywhere is a threat to justice everywhere (from the great words of MLK). I refuse to sit still and stay silent when there is a clear injustice happening at providence alaska medical center with leadership. My goal(s) as a grievance officer is to help stand up with and for my fellow nurses; to empower those who feel like that they do not have a voice or are too intimidated to use their voice.
